

THE NEW

RAYMOND RECORDER

No. 8 Vol. 3 Thursday, June 12, 1952

United Church News

At 3 p.m. everyone is asked to meet at the Church again in order that we may travel together to Woop-Up for the Sunday School picnic. Each family is requested to bring supper for its own members and weiners if you wish to remain for a weiner roast in the evening. Don Petrak will be there with his guitar to lead in the singing at the campfire.

Mr. and Mrs. Tom McMahon and children spent the week-end in Calgary visiting at the home of her mother.

Mr. and Mrs. Stewart Fyffe and family spent the week-end in Calgary where they attended the weddings of their oldest son Louie to June Simpson of Medicine Hat; and their eldest daughter Betty to Wm. Levermore of Calgary.

Our best wishes are extended to both young couples.

The weiner roast at the farm home of Mr. and Mrs. Ray Attwood was well attended. Watch for the date of the next one.

Glad to report that Mrs. Olsen is home again from St. Michaels Hospital and feeling much better.

We are sorry that Mrs. John Hellawell is still a patient in St. Michaels Hospital. Perhaps she would enjoy a card or a letter or better still a visit from some of her friends.

Mr. Hellawell and family have moved to their new home at 923-8th St. South.

A most enjoyable and impressive Baptismal and Communion Service was held Sunday June 8th at the United Church with Rev. Johnson of Cardston conducting.

Mr. and Mrs. Jack Vanderhilt and Mr. and Mrs. Joe McLean spent the long week-end fishing at Eko, B. C.

Pete Vanderhilt, Don Petrak, Reed Scoville and Bob Cook spent the week-end in Great Falls.

Mr. Andrew Peters of Calgary, who is an uncle of Stewart Fyffe, was a guest at their home this week.

Mr. and Mrs. Roscoe Baker and family have been visiting friends and relatives in Raymond and district. They are on their way to California where they will make their home.

Mr. and Mrs. Robert Selby of Cardston visited at the D. L. Paxman home on Sunday.

Band Presents Concert

Wednesday noon the High School Band brightened the day for those in the area around King Motors when they displayed their talents at a short concert.

A wonderful thing has been started at the High School and it is the hope of many that even though Grant Erickson has gone, someone will step forward to keep his efforts and those of the RHS students alive.

GRADE ONE REGISTRATION

PARENTS: All children who reach the age of six years during the current year, 1952, are to be registered with Mr. J. O. Hicken, Principal, at his office in the Raymond Public School on or before the sixteenth day of June, 1952.

THE RAYMOND SCHOOL BOARD

Mr. and Mrs. Donald Miller had as their guests over the week-end, Mrs. Miller's brother-in-law and sister, Mr. and Mrs. Pat Walker of Vulcan. On Sunday they all went to Waterton for an enjoyable day.

Grant Erickson Given Sendoff To South Seas

Many friends and relatives were present Sunday evening at the Fourth Ward Service to honor Grant Erickson who leaves this week for Salt Lake and then the Tongan Mission.

Kay Redd was in charge of the Service which consisted of a piano solo by Margaret Erickson; a talk by Grant's mother; an organ solo by Roi Stone; a violin solo by his father Lief Erickson; and a talk by Grant. Mrs. Orson Bingham, a member of the Genealogical Committee as well as a former school teacher of Grant's, presented him with the Genealogical Book, 'Our Family'. Jeanine Jensen's vocal solo was followed by a few remarks from Mr. Erickson and Bishop Snow.

The opening prayer was offered by Bishop Zaugg of Stirling and the benediction by D. A. Bennett.

Just A Little Holiday

Wilf Lapierre is having an enforced holiday these days. He took a very devious way to get his rest and no doubt will be glad to get back to work.

Last Saturday, about noon, Wilf was driving a tractor along the highway at Welling when he was bumped into by Ralph's Transport. The collision upset the tractor which turned over a couple of times, pinning Wilf head down with gas and oil running all over him. He was taken to the local hospital where X-rays revealed no broken bones but lots of bruises and a couple of torn muscles. He is getting along fine and will be released in time to go to bed in his own home Sunday night.

The tractor and a haying tool that was attached to it were practically demolished but damage to the truck was not too great.

A change has been made in the officers of the First Ward Primary Association. Mrs. Mel Lybbert is the new President, and Mrs. Mose Fromm and Mrs. Ernest Palmer are her Coun- cillors.

Grade Twelve Girls Honored

Tuesday afternoon was a gay time at Thompson Furniture. That was the time that the seventeen Grade 12 girls from the High School were honored by Mr. and Mrs. Thompson at an informal party. The girls were shown around the store and an interesting story was told about the manufacture of furniture.

Highlight of the occasion was the presentation of each girl with a miniature cedar chest. An explanation about cedar chest construction was also made.

Photos were taken by Mose Fromm and refreshments were served.

NOTICE

All dogs not wearing a 1952 License will be destroyed immediately and the owner or harbinger will be charged \$2 for this service.

License Fees are: Male \$1 — Female \$5

POLICE COMMITTEE

TO ALL WATER USERS

The following regulations have been adopted regarding the use of tap water and will be strictly enforced:

1. No provision is made for watering in the night as it is felt that water at this time is largely wasted as it is not efficiently distributed.
2. All persons north of First Street North (King Motors) except those west of the Diagonal road (Columbia Avenue) may use sprayers between the hours of 6 a.m. and 2 p.m.
3. All others may use sprayers between the hour of 6 a.m. and 6 p.m. (pressure is less in South and requires longer).
4. One sprayer only is allowed to one service, open hose are prohibited, waste of water is prohibited.
5. Any water service used contrary to these regulations will be shut off and a \$10 penalty may be assessed.

Regulations are effective immediately and continue during June, July and August.

TOWN WATER COMMITTEE

J. Kenney, A. Ralph, H. Melchin

Legion Ladies To Beautify Grounds

At the Ladies Auxiliary to the Legion meeting held Monday evening it was decided that the project for this year would be to fix the grounds and make new drapes for the hall. A meeting will be held on the 24th to make a quilt to be raffled.

The Treasurer's Report showed the final total of \$490.36 had been collected for the Cancer Drive.

The Door Prize which was donated by Clayte Ralph was won by Wanda McKean; while the Membership Pot of \$6.00 would have gone to Alma Helgeson had she been present.

A very tasty lunch was served by Mesdames Jennie Allen and Val Attwood.

Laurie Harker Wins More Scholarships

Th past year has been a good one for Laurie Harker.

His studies at the University of Alberta have taken up a good deal of his time but not all of it—he has found time to take piano and vocal lessons, sing in the University Choir and occasionally enjoy himself generally. Besides doing all this he worked hard enough in school to win a \$100 Scholarship awarded by the Association of Jewish Women to the student with the highest average marks in Arts and Science, freshman year. To win this award Laurie had an average of 90%. Also received by Mr. Harker was a \$50.00 Honor Prize awarded by the University to students with an average of over 80%. Another \$25.00 was added by his winning the D. K. E. Memorial prize for having the highest marks in Chemistry 40. It would have taken some doing for anyone to beat him out of that prize because his marks in that subject was 99%.

Hats off and a large bouquet for Laurie Harker.

A Graduation Party was held at the Stake House recently for Elaine Judd, Loretta Heggie, Eugenia Viola, Dana Bacon and Joanne Sudo who are graduating into Mutual. After a delicious luncheon the girls presented a short program under the direction of their teacher, Mrs. Norma Smith, for their parents, Bishop, Primary Presidency and Mutual Presidency.

Mr. and Mrs. Veron Garner have returned from their honeymoon trip to the States, and have moved into A. J. Garner's basement suite.

Third Ward Presents Arts Festival

Members of the Third Ward had an opportunity to enjoy a very entertaining Speech — Music — Dance Festival recently which culminated the year's work in these departments.

The Min Maids, in costume, started the program with a novelty number, singing 'Be My Life's Companion' and 'I Love You Truly'—complete with actions. A story was retold by Bernice Dahl after which Hanaya Iwaasa rendered a vocal solo. Kay Salmon, Calvin Salmon and Jack Holt then entertained with a clarinet trio, followed by a vocal solo by Wayne Greep after which Joanne Salmon gave a Reading. A novelty number by the Bee Hive Girls 'I Never See Maggy Alone' was enjoyed by the audience followed by an M Men and Gleaner Chorus singing a Maori song.

The Bee Hive Girls and Scouts then demonstrated the Patty Cake Polka; the Jr. M Men and Gleaners—Tea For Two, Voursouviene, Spinning Wheel Waltz and a Polka; and the Special Interest Group danced two Square Dances—Turn That Line and Goodby My Lover Goodby.

A good deal of credit goes to the Arts' Directors Beth Zemp, and Mabel Salmon for Speech, Maybelle Anderson and Emma Dahl, Music; and Jane McMullen, Dance Director, as well as the performers for the success of this enjoyable program. Ken Garner was the Master of Ceremonies.

Pete Witbeck Wins Fourth Letter

Mr. and Mrs. Hamp Witbeck, Mrs. Nadine Price and Tom Witbek travelled to Provo recently to be present for Pete's graduation at the BYU. Pete was graduated with a B. Sc. in With Me' by the Choir was followed by the benediction which was offered by Ken Garner.

Pete will return to the BYU next fall to study for his Master's Degree.

Newly Weds To Reside In Claresholm

Paxman — Grigor

On Wednesday June 4th, Della Allred Paxman, daughter of Mr. and Mrs. Douglas Paxman became the bride of Earl Grigor, son of Mr. and Mrs. Jim Grigor of Barnwell. The marriage took place in the Alberta Temple with Pres. Cahoon officiating.

The radiant bride was gownned in traditional white satin featuring dainty daisy lace on the yoke of the gown. A lovely lace edged finger-tip veil cascaded from a seed pearl coronet, and she carried a bouquet of white carnations and mums centered with mauve and yellow lilies.

Her three sisters, Mrs. Charles Romeril and Misses Carma and Kate Paxman as Matron of Honor and Bridesmaids, wore semi-formal gowns of blue, yellow and pink respectively with overskirts of net; each carried a bouquet of white carnations, daisies and sweet peas. Dixie Lee Paxman, who was Flower Girl, wore a pink dress and carried a basket of spring flowers.

Mrs. Paxman chose for her daughter's wedding a sheer grey dress touched with lace complimented by a corsage of pink carnations while the groom's mother wore a navy crepe frock with a red carnation corsage.

Orvil Grigor was his brother's Best Man and Willard Paxman and Walter Grigor were ushers.

Many relatives and friends from Barnwell, Lethbridge, Claresholm, Staveland, Lethbridge as well as Raymond gathered at the Stake House to extend their best wishes to the happy couple. The guests were greeted by Mr. and Mrs. Wm. Anderson and Mr. and Mrs. Elmer Jensen of Barnwell while Mildred Wesley, Lois Milner, Bernice Wilde, Pat Mitchell and Josephine Litchfield accepted and arranged the gifts. Joyce Milner presided at the Guest Book.

(continued on page three)

A Sunday evening Study Class was held at the home of Mr. and Mrs. Lawrence Turner recently. A very tasty lunch was served after the lesson was presented.

Gene Garner Honored At Farewell

Gene Garner, who leaves on Friday for the Mission Home in Salt Lake, was honored at a Farewell Service in the Third Ward Sunday evening.

After the opening song by the Choir 'I'll Go Where You Want Me To Go' Elmer Spackman offered the opening prayer. Talks were given by Mrs. Vivian Preston and by Lawrence Turner who labored in the Central Atlantic Mission which is Gene's Mission Field, after which Laurie Harker rendered a vocal solo. Mrs. Garner's remarks were followed by a double trio under the direction of Gladys Holt who sang 'My Testimony'. Mr. Garner's talk was followed by a male quartet, Frank Taylor, Paul Redd, Deb Oler and Ira McBride singing 'Home' after which a brief talk was given by Gene who was then presented with a Book by Alma Hancock on behalf of the Genealogical Committee. Bob Salmon representing the Bishopric of the Genealogical Committee, 'Abide With Me' by the Choir was followed by the benediction which was offered by Ken Garner.

Dr. and Mrs. Harlan Taylor left on Tuesday for Salt Lake where they will attend Conference. Mrs. Frank (Kathleen) Newman who has been visiting her parents, Mayor and Mrs. Frank Taylor, returned home to Salt Lake with them.

Chips From The Scout Log

First Raymond Troop

Previous Activities

The troop had a visit from Constables Anderson and Greene of the RCMP of the Lethbridge detachment who gave us an interesting account of life in the RCMP and the type of men who are needed for that work. He showed us his firearms and explained their uses. We hope for a return visit from our friends soon.

Last week was the time for Patrol Leaders to review the fundamentals of Scouting. The instructions given were these:

1. Scouting is to build citizens that will benefit the community and country, if they honor their promises.
2. Scouting will enable boys to follow the teachings of God more closely if they honor their promises.
3. Scouting trains a boy to be prepared to act instantaneously in any emergency that may arise. He learns to act quickly in defense of the life of any person.
4. Scouting prepares a boy to live comfortably under the conditions in which he finds himself.
5. "To be prepared" means to have a knowledge of what to do and the ability to use your knowledge accurately.

The Troop Meeting on Tuesday was directed to sports. The first part of the activities was a session of drill under the direction of the Scouters. The troop is slowly learning the fundamentals of discipline, obedience and alertness through this drill. Scouter Tychsen directed the games for the rest of the evening.

Standing at the alert before the assembled Court of Honor, several Scouts satisfactorily passed the tests given them by that governing body. Those successful were:

(continued on page three)

A Fireside was held at the home of Mr. and Mrs. Ace Scoville Sunday evening honoring Gene Garner. Reid Zemp was Master of Ceremonies.

A Book Review was given by June Woodhead, followed by a vocal solo by Kay Salmon, after which Ken Garner spoke. After an instrumental duet by Pat Strong and Ken Hicken was enjoyed Vivian Preston presented Gene with a Book from the gathering. Gene made a short speech of thanks. A double trio under the direction of Gladys Holt rendered an enjoyable number; those participating being Gertrude Hudson, Alice Stevens, Marie Zemp, Bernice Dahl, June Anderson and Gladys.

The evening was topped off by a delicious lunch.

Mr. and Mrs. Fritz Dahl entertained about twenty guests at their home Sunday evening after Church honoring visiting her parents, Mayor and Mrs. Frank Taylor, returned home to Salt Lake with them.

More Of Raymond's History

September 3rd.—A special meeting was held in the Raymond Ward Meeting House. The occasion was a visit from Pres. Jos. F. Smith. With him were Anthony H. Lund (his Second Councillor) Apostle John W. Taylor, Pres. Chas. O. Card of the Alberta Stake, also D. A. Wooley and prominent sisters from Salt Lake.

The meeting was called to order by Bishop J. W. Knight and the choir sang "Come, Come Ye Saints"; Prayer was offered by Wm. Wood. Pres. Lund was introduced as the first speaker. "He said: 'I know of no place in Zion which has shown such rapid growth and has accomplished so much in the same length of time. It is human nature to expect rather than to appreciate blessings'."

Mrs. McDuffee sang a solo accompanied by Mr. Moore.

Zina Y. Card was the next speaker and said: "We should pray for Jesse Knight after all he has done for us". Sister Smith, wife of Pres. Smith, was the next speaker, she spoke on Celestial marriage. Apostle Taylor's wife said we should be thankful for our testimonies.

President Smith said: "I marvel at the progress made and I consider your opportunities most favorable for a glorious future. My greatest fear is that through prosperity some may be led to forget the giver of all good. I congratulate you upon your happy location. We have greater opportunities than have ever been enjoyed by our people." Our history in Canada was recounted; he hoped our virtues would gain favor with the powers that be 'till Zion grows from the base of the mountains to the Gulf. He advised the people to lay out their streets and sidewalks and commence ornamenting them that our better natures can be educated. "We should build good homes and make our wives and children happy. The mothers who bear our children are worthy of our highest love and admiration."

Pres. Chas. O. Card arose and the following organizations were effected in the Eastern Circuit.

Zebulon Jacobs as Instructor in Religion Classes, with Franklin P. Fisher as first and Arthur Dahl second assistants.

Pres. of Primary—Mary Head

Pres. of YMMIA—Francis W. Kirkham, Arthur E. Fawns first Councillor John Powelson Secretary Treasurer.

Pres. of YLMA—Jennie B. Knight Dora Jacobs first and Elizabeth Porter second councillors.

Apostle Taylor, the next speaker followed, and told how the people had answered the calls made of them. He also explained the liberality of the Canadian Government.

The choir sang 'Praise To The Man' followed by Benediction L. H. Holbrook.

Mrs. Gertie Fairbanks accompanied Mr. and Mrs. Fritz Dahl to Picture Butte recently to attend the Farewell Service for Donald, son of Mr. and Mrs. Ross Salmon. Donald is to fill a mission in South Africa.

Mr. and Mrs. Alma Sommerfeldt entertained a few friends and relatives in honor of Lyle Rasmussen who returned Friday night from South Africa where he had been a missionary for the LDS Church. Lyle was unable to complete his mission due to his health.

He told the interested group of his experiences there and showed pictures, after which a tasty lunch was served by the hostess.

The Young Ladies Mutual Stake Board met at the home of Mrs. Taylor this week.

Mr. and Mrs. Jack McClain had as their guests on Saturday, Jack's uncle and aunt, Mr. and Mrs. Lynn McDerm of Magrath.

The Story of the South Road

We a number of ratepayers of the Municipal District of Sugar City No. 5, herewith submit for your consideration certain problems faced by us in connection with the construction of the Milk River Ridge Reservoir. The problem concerns directly 275 of our population residing south of said reservoir in Townships 2, 3, 4 and part of 5 in Range 19 and 20, West of the 4th Meridian.

There are at present two outlet roads available to these 275 people. 1st. A direct road running south from the eastern edge of the town of Raymond and running east to Section 17-5-20-4; and

2nd. The so-called Kircaldy Road running north and parallel to the direct road but four miles east of same.

Both of these roads will be submerged by the said reservoir, and hence destroyed.

This group of people are asking the Provincial Authorities to co-operate with the PFRA authorities to solve the problem by constructing a 'fill' on the direct road east of Section 17-5-20-4 with suitable bridge or culverts.

So far we haven't got very far, each of the Provincial and PFRA group disclaiming responsibility, and shunting us to the next office. Hence we now plead for your good offices in behalf of a possible co-operative plan for the undertaking.

The 'fill' we propose would entail:

1. An earth fill 1,600 feet or less in overall length, and 30 feet maximum height.
2. Suitable bridge span or culverts to accommodate the flow of water.
3. Suitable stone reapplying for wind and wave protection.

Regarding the first point: There is an adequate supply of dirt at either end of the fill, as this is the narrowest point in the whole 10 miles of the length of the reservoir, and the banks on both sides are the highest in its entire length also.

Regarding the third point: There is available, within easy hauling distance, abundant supplies of stone for ripraping.

The road on both sides of the proposed fill is already well graded and well gravelled. Therefore the cost of the 'fill' with bridge structures represents the whole cost of this project. The PFRA engineers give a rough estimate of such cost at \$90,000.00 to \$100,000.00.

All farmers concerned have expressed themselves in mass meetings, unanimously, that such a solution will be final and adequate.

In the original agreements, and negotiations, years ago, re the project, no attention was paid the population south of the said reservoir, since they were few in number, hence there is no clearly defined policy, and no clearly defined responsibility as near as we can find out, as to who shall shoulder the expense of the above fill and bridge structure.

When our problem was pointed out to the PFRA engineers, they came up with a proposal to route traffic around the western end of the reservoir, by way of detours. This would add many miles to the necessary travel of each vehicle making the trip to town for supplies, or to market. This the ratepayers rejected. The engineers then suggested that the proposed detours be shortened by leaving Section lines and regular road allowances, and surveying a shorter route diagonally north-west and north east across six farms, to shorten the detours a little. This idea is not acceptable for the following reasons. It entails between 5 and 7 miles of new road to be constructed, gravelled and maintained on the western end of the reservoir alone. Now, the present direct road is about two miles or a little less from the western end of the reservoir, and those living in Range 19 are already going from 2 to 6 miles west to the direct road, and agreeing to it, but they say that if they are detoured even further west, for the proposed detour, that they will enmass, immediately press for a like detour around the east end of the reservoir toward New Dayton. The roads in this area are not well improved, and so between 8 and 12 miles of new road construction east of the reservoir would at once become necessary.

Now to deal with each of these sections separately—

1. Re the west end detour:

a. In addition to the 5 to 7 miles of new grade there will be required at least 6 culverts or bridges; three of them on the south leg of sizeable proportions with approaches of good size. The country here is rough and the coulees deep. The three on the north leg, however, would be smaller and less expensive.

b. Farm ground must be purchased for right-of-way, diagonally across at least six farms. This will be expensive. The farmers involved point out that they must be reimbursed by way of "severance" for the expense of operating triangular fields forever afterwards.

c. Snow will be a major problem on the south leg where the country is rough; in fact those who know the district best stoutly maintain that it will be impossible to keep such road open in any winter when the snow fall even approaches the magnitude attained this winter just passing. We agree with them as to the near impossibility of such clearance.

d. This road is a school van route, already seventeen miles long, one way now the detour will add at least 3 miles. This will necessitate earlier starts and later returns, whereas now they use up every minute of daylight in winter. The added distance will work a real hardship on school children.

e. School van costs will be increased by at least \$500.00 per year per vehicle, or \$1,000.00 in all.

f. The added cost to farmers in the area, in requiring them to haul their produce an extra three miles each way or six miles per trip, is a real consideration. A survey made re 1950 crop year reveals the following: In 1950 there was hauled 20,300 tons of produce and material. This means an extra 121,800 ton-miles of traffic, at 8¢ per ton-mile equals \$9,744.00 per season.

g. There are 120 licensed vehicles the area, and besides the actual haulage charges there will accrue an equal or greater amount for necessary travel costs.

h. The engineers estimate the cost of this detour at \$40,000.00 to \$45,000.00.

2. Now as to the east end detour. It will entail—

a. Between 8 and 12 miles of new grade, and graveling to be constructed.

b. The country traversed will be very rough for about half this distance.

c. The construction of at least six bridges or large culverts.

d. The purchase of corresponding mileage of right-of-way.

e. The facing of a snow problem as bad or worse than that mentioned for the other end of the reservoir.

f. We have reason to believe that the cost of this would equal or exceed the \$45,000.00 mentioned by the engineer for the west route.

The total extra mileage of roads to be constructed will therefore be thirteen to nineteen miles. For these miles the life of the road is from

twelve to fifteen years, and then must be rebuilt. We maintain that this cost will even exceed the cost of maintaining the direct "fill". In times of spring run-off floods, our municipal experience re culverts and bridge maintenance in the area has been bad. The dozen extra culverts necessary for the two detours will cause the provincial and municipal highways department expensive maintenance costs.

Don't let us kid ourselves that floods at the foot of the Milk River Ridge will not occur.

Now as to costs. Our delegation have been confronted with two arguments: 1st. That the cost of the fill, placed at \$100,000.00, is prohibitive as compared to the cost of the west detour of \$45,000.00. We wish to reiterate that such a comparison does not give a true picture. The real comparison is as to the \$100,000.00, as compared to the combined cost of the two detours, which will total \$90,000.00 or more. 2nd. The second argument, advanced by the Honourable Mr. Taylor was that these 275 people were in no worse condition than others in remote sections of Alberta who wanted but could not get, bridges as fast as they wanted them. This argument does not consider the full picture either, for:

Is it right to take from one group that which they have, under guise of general welfare, that is for the benefit of those who, later shall settle on new irrigated lands. We are not opposed to, and do not wish to be identified with, opposition to the new irrigation development. We want only to be left at least as well off as we are now, when all others will be directly benefited by irrigation development.

These people in Range 19 and 20 are presently in possession of two direct routes to town and markets. They have bought, contracted for and committed themselves financially, having regard for these existing costs of marketing. Now the SMRD comes along, destroys these and adds to their costs, they will be worse off, whereas others in remote sections settle there with their eyes open as to distances etc. and their contracts are therefore less and their prices of land correspondingly lower.

There is still another point to consider, so far as the Provincial Department of Highways is concerned, viz: Mr. N. H. Bradley, District Maintenance Engineer, suggested to the Municipal Council that when the Kircaldy road becomes flooded, that the stretch of four miles running west on the south side of the reservoir to connect with the west detour, be made a district highway, along with the detour itself and the road on into town. He partly promised that this should be done. This will mean added expense to the Provincial Department to the extent of 75% of cost of construction of these miles of road.

In conclusion, an observation as to the practical effects on the thinking of the community involved:

Everyone concerned will be content and satisfied if the direct route is constructed. They will regard this as adequate, farsighted and well done; on the other hand the detours will satisfy no one, will keep before them (henceforth, if they must travel extra miles) the names of the authorities, as being short sighted, buck passers, and we will continually remember added marketing costs, added school costs, added hardship on school children. A decision must be made now, because once the water comes into the reservoir, it will be forever too late to correct an error made in the name of economy, or in the name of any other consideration.

Respectfully submitted by this committee on behalf of the Municipal Council and the ratepayers of the area concerned.

Monday evening Mrs. Dot Witbeck entertained a number of ladies at her home in honor of Gene Garner. It was in the form of a Hankerchief Shower with Gene receiving many lovely gifts.

After a pleasant evening of chatting, a delicious lunch was served by the hostess.

Mr. and Mrs. Thurston Smith of Edmonton came down over the weekend to visit his parents, Mr. and Mrs. S. B. Smith. The four of them then left on Tuesday for Salt Lake and other points in the U. S.

TWENTY MILLION CANADIANS

In another 20 years at the present rate of growth, Canada's population will reach 20 millions, says The Financial Post. This will mean more people to buy more goods. 'Thin' markets will "fatten", producing in larger quantities. Spreading the vast overhead of fixed costs, many Canadian heavy industries will achieve higher efficiency. Costs will come more into line with U. S. costs. There will be more room for true Canadian design in furniture, in clothes, and in household equipment.

Manufacturing will show the greatest growth and will use most of the additional labor force. Little of the population increase will flow to the farms. The same number of farms will have 40% more Canadians to feed. Home markets for agricultural produce will loom larger. Probably wheat will be the only farm product which will still have to look to export. And if we use our heads and help to develop backward countries now, we shouldn't have much trouble finding markets for surplus crops 20 years from now. The problem of export markets for farm products should be small, and farm prices relatively good.

TO LIVE IN CLARESHOLM
(continued from page one)

After greeting the Bridal Party the guests were served a dainty lunch by Sharlene Sommerfeldt, Norma and Nadine Meldrum who were in evening dresses. The First Ward Relief Society, under the direction of Mrs. Ernest Litchfield, was in charge of the lunch. The Bride's Table was centered by a lovely three tiered wedding cake which was flanked by double tapers and yellow and purple pausies.

Jim Hudson was Master of Ceremonies for the enjoyable program which consisted of solos by Denise Dahl, Anne Alfred, Irene Harris, Mrs. Douglas Anderson, and Donald Douglas, and Readings by Mrs. Harold Stevens, Mr. Mercer and Erma Nielson.

The Toast to the bride was proposed by Orvin Hicklen with the groom responding.

The wedding music was played by J. Patey.

Mrs. Grigor donned a blue suit with grey alligator accessories and mauve hat and gloves for their honeymoon trip to Salt Lake. They will make their home in Clareholm on their return, where the groom is engaged in the Propane business.

Proper Processing

— is our business

We know how to cut your meats so they "eat better" . . . how to cure your hams and bacon to a mouth-watering turn . . . how to get the most out of every cut of meat for your family.

It is good business to have your locker plant process all your meat for maximum eating pleasure and greatest economy. Remember, for proper processing of food for storage in a locker or home freezer . . . the locker plant does it best.

Gerald Gibb and Barker Selman left Saturday morning for Utah by the home of Mrs. Gladys Hague with car. Gerry will remain in Provo for the summer where he will attend summer school at the BYU. Barker will attend Conference in Salt Lake; returning with Mr. and Mrs. Gordon Stone.

The Wednesday Night Club met at the home of Mrs. Gladys Hague with Mrs. Clara Rolfsen as a special guest. Prizes went to Velda Heggie for High Score and Thirza Cooper for Consolation. A very tasty lunch was served by the hostess at the conclusion of the evening.

EASIER STARTING... EXTRA POWER & PERFORMANCE IN YOUR MEDIUM OR LOW COMPRESSION TRACTOR

If you're looking for an ideal fuel for your medium or low compression tractor, try Imperial Acto Gasoline. It's easy starting and smooth idling. The short warming-up period permits you to swing right into a day's work. It works better than less volatile fuels when you're on the job—you'll pull bigger loads and you'll have more reserve power when going gets tough.

Imperial Acto is a non-leaded fuel that's carefully refined to rigid standards and perfectly blended to give you the maximum amount of work from each tank full of gasoline. Use Acto for better all round performance and extra value for your fuel dollar.

Sulphuric Acid Reclaims Alkaline Soil

Soils too high in Alkali content for plant growth have been successfully reclaimed by treatment with sulphuric acid in experiments conducted by soil chemists at the University of California, according to C-I-L Agricultural News.

While sulphuric acid was more expensive than other reclamation chemicals, the scientists appeared to be satisfied that its use was economically profitable because of the treatment's speed and effectiveness. Soils planted shortly after sulphuric acid treatment produced good yields the first season.

In ordinary alkali soils, the trouble makers are sodium salts which make the soil sticky and keep water from percolating through. This is responsible for lower yields. Sulphuric acid produces sulphuric in the soil which dissolves in water and can be bleached out.

Mrs. Fritz Dahl was hostess at a birthday party on Friday for Katherine on her tenth birthday. A pleasant afternoon of games and lunch was enjoyed by the friends present.
